Rural Utility Service

TITLE: Seismic Safety of New Building Construction, 7 CFR 1792, Subpart C

OMB CONTROL NUMBER: 0572-0099

SUMMARY OF COLLECTION: Seismic hazards present a serious threat to people and their surroundings. These hazards exist in most of the United States, not just on the West Coast. Unlike hurricanes, times and location of earthquakes cannot be predicted; most earthquakes strike without warning and, if of substantial strength, strike with great destructive forces. To reduce risks to life and property from earthquakes, Congress enacted the Earthquake Hazards Reduction Act of 1977 (Public Law 95-124, 42 U.S.C. 7701 et seq.) and directed the establishment and maintenance of an effective earthquake reduction program. As a result, the National Earthquake Hazards Reduction Program (NEHRP) was established. The objectives of the NEHRP include the development of technologically and economically feasible design and construction methods to make both new and existing structures earthquake resistant, and the development and promotion of model building codes. 7 CFR part 1792, subpart C, identifies acceptable seismic standards which must be employed in new building construction funded by loans, grants, or guarantees made by the Rural Utility Service (RUS) or the Rural Telephone Bank (RTB) or through lien accommodations or subordinations approved by RUS or RTB.

NEED AND USE OF THE INFORMATION: Borrowers and grant recipients must provide to RUS a written acknowledgment from a registered architect or engineer responsible for the designs of each applicable building stating that the seismic provisions to 7 CFR part 1792, Subpart C will be used in the design of the building. RUS will use this information to: (1) clarify and inform the applicable borrowers and grant recipients about seismic safety requirements; (2)

improve the effectiveness of all RUS programs; and (3) reduce the risk to life and property through the use of approved building codes aimed at providing seismic safety.

OMB CONTROL NUMBER: 0572-0122

SUMMARY OF COLLECTION: The Rural Utilities Service (RUS) is authorized by Section 306 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926) to make loans to public agencies, nonprofit corporations, and Indian tribes for the development of water and waste disposal facilities primarily servicing rural residents. The Waste and Water Disposal Programs (WW) of RUS provide insured loan and grant funds through the WW program to finance many types of projects varying in size and complexity. The Waste and Water Disposal Guaranteed Program is implemented through 7 CFR 1779. The guaranteed loan program encourages lender participation and provides specific guidance in the processing and servicing of guaranteed WW loans.

NEED AND USE OF THE INFORMATION: Rural Development's field offices will collect information from applicants/borrowers, lenders, and consultants to determine eligibility, project feasibility and to ensure borrowers operate on a sound basis and use loan funds for authorized

purposes. There are agency forms required as well as other requirements that involve certifications from the borrower, lenders, and other parties. Failure to collect proper information could result in improper determinations of eligibility, improper use of funds and or unsound loans.
